VOLUME XLI

GRAYLING, MICHIGAN, JUNE 26, 1919.

NUMBER 26

## CORNISH CUTLETS

Trim slices of cold lamb into pieces of the same shape and size; sprinkle them with salt, pepper and a few drops of tomato catsup. Have ready some well-seasoned, hot, mashed potatoes into which two yolks of egg have been beaten. Cover each slice of meat with the potato and make the surface smooth with a knife. Dip in a beaten egg, diluted with three or four tablespoonfuls of milk and water; cover with sifted bread crumbs and fry in deep fat.

## PASSED STATE EXAMINATION

The following are the eighth grade students who passed the state eighth grade examination.

Ronald Love, Frederic.  
Richard Carstensen, Frederic.  
Robert Hunter, Frederic.  
Martha Peterson, Frederic.  
Nate Carstensen, Frederic.  
Max Tobin, Frederic.  
Sadie Vallad, Frederic.  
Helen Smith, Frederic.  
Kristine Salling, Grayling.  
Lola Smock, Frederic.  
Tracy Heath, Grayling.  
Eleanor Schumann, Grayling.  
Archie Cripps, Grayling.  
Belle Barber, Roscommon.  
Earl Smith, Roscommon.  
Ronnie Hanson, Grayling.  
Marian Carrik, Grayling.  
Rose Cassidy, Grayling.  
Clare Madison, Grayling.

These seventh grade people passed in physiology:  
Lena Diffell, Roscommon.  
Rufus Edmonds, Frederic.  
Carl Olson, Frederic.  
Frances Wucker, Frederic.  
Florence Stephen, Grayling.  
Myrtle Stephen, Grayling.

Those 7th graders passing in Geography were:  
Volney P. Smith, Roscommon.  
Lena Diffell, Roscommon.  
Richard Carstensen of Frederic having received the highest mark on the State Fair agricultural test, is Crawford county's candidate to Detroit this fall to the state fair.

Earl Smith of Roscommon held second place.

## WHAT NORTHEASTERN MICHIGAN OFFERS TO THE SHEEP BREEDER.

Because range conditions in the west are not what they used to be due to the cutting up of the ranges by the homesteaders and the cutting off of the water supply, sheep breeders are paying more and more attention to other territory and are gradually getting the business on a more systematic basis than it ever could be when wide ranges were open to free grazing which was appropriated by the man first on the ground or who had the strongest outfit to maintain his hold on the grazing lands.

With the advent of the homesteader and the cutting off of free grazing the sheep breeder has been forced to look to other territory and is gradually awakening to the fact that much farther east and a great deal closer to the great markets he can obtain grazing lands at a low figure where grass and clover grow in abundance and where roots and winter forage crops can be raised at a minimum of effort. The best of these lands are found in the vast area of cut-over lands in Northeastern Michigan, where clover grows wild amid the trees and underbrush, where luxuriant grasses are always found and where the water supply never fails because of the abundance of lakes and streams is supplemented by the fact that continuously flowing wells can be obtained by drilling to a depth of from 75 to 200 feet.

A report on the cost of running a ewe in Montana estimates the total at \$11.12 per animal, this including pasture, feed, herders' wages and all other labor. In the best grazing districts of the west, the valley lands and the irrigated lands, the price per acre is already high and growing higher every year, and the soil will not yield any better crops than does the soil of the Michigan hard wood lands.

The Michigan lands, taken just as the lumbermen left them, will pasture at least one sheep to the acre while after the brush has been burned, cut or killed by pasturing it will easily pasture four sheep per acre. The grass and clover crops and the water on these lands never fail, and the future possibilities are only just being realized by the men who have begun to investigate them.

Where so many sheep can be run to the acre the owner can well afford to fence the land, thus dispensing with the cost of herding, and by cutting ranches into sections and shifting herds from one to another every few days a continuous growth of pasture can be obtained, insuring cheap feed all through the grazing season.

Lambs born in this territory in March weighed 60 pounds at slightly less than two months old and with proper care a three-months-old lamb will weigh 60 pounds or better when delivered at the market, which is only one day's ride from the grazing lands.

Four sections of land, properly prepared by clearing the brush and seeding with sufficient acreage cleared to reproduce the hay, peas, oats and rutabagas or other root crops, will carry 5,000 sheep the year around, and each year the soil will become better and better adapted to its work or made suitable for general farming and the income from the land will be a permanent, dependable proposition.

In the winter of 1918-19 one sheep man wintered 500 sheep in northern Michigan at a cost of \$3.50 per head and with a loss of only three sheep and he had to buy all his feed at the high prices of that winter. Another brought 3,000 ewes from Idaho in April and placed them on a tract of 8,400 acres which he purchased and on which he plans to place 10,000 head next year. Included in the land he purchased is considerable cleared land on which he expects to raise almost enough hay, pea straw and rutabagas to winter his flock. Many similar instances can be cited and there isn't a county in all northeastern Michigan which does not have tracts of many thousand acres on which can be duplicated the same thing which these men are doing nor is there scarcely a county in which it has not already been done, on a smaller scale, by men who are permanent residents of the district.

## I. O. O. F. CELEBRATE 100TH ANNIVERSARY

STREET PARADE AND PUBLIC PROGRAM ATTRACT MANY.

Able Addresses Given by Grand Lodge Officers. Members Banqueted.

The centenary of Odd Fellowship was celebrated by Grayling lodge I. O. O. F. last Friday evening when the Local was honored by an official visit from Grand Master George Harland of Detroit and Grand Secretary Fred A. Rogers of Reading. For several days the committees had been preparing for the event and with usual Odd Fellow thoroughness were "all set" when the time arrived. The Grand lodge visitors were to arrive on an office train and a reception committee waited at the train while their guests quietly motored into town and hung their hats on the rack at Shoppington's Inn. The visitors did not wait long however before Mayor Hans Petersen and other members of the committee had them out seeing the attractions about Grayling. They visited the Fish Hatchery, the State Military reservation and other places of interest.

At 7:00 o'clock there was held at the lodge rooms a school of instruction. At 8:30 o'clock the members of the lodge, headed by the Citizens' band passed in review before the citizens of Grayling by parading from their lodge rooms thru the main thoroughfares and back to Temple street. There were nearly 100 men in the parade.

The members of the order occupied the center section of the theatre. There were many visitors present among them from other towns and cities. Above the stage was a large sign giving the name of the lodge, Grayling Lodge No. 137, I. O. O. F. and containing the three links electrically illuminated.

The band played a selection after which Herb Gothro, N. G., and L. M. Meade, V. G., read some of the ritualistic ceremonies of the order. Secretary James Olson read a proclamation by the Grand Master proclaiming April 26, 1919 the centenary of Odd Fellowship, the order having been founded April 26, 1819 in the city of Baltimore, Md.

Mrs. T. W. Hanson sang "Mission of a Rose" and was loudly applauded. In response, assisted by Fred Alexander they sang "Come Sing to Me."

Mayor Hans Petersen was down on the program for felicitations, and cordially greeted the visitors and assured them of a cordial welcome by the citizens of Grayling, and introduced Grand Master George Harland as the next speaker.

Mr. Harland is an enthusiastic Odd Fellow, and devoted to the principles of the order. Since becoming Grand master he has started out to visit as many local lodges in the state as possible during his tenure of office. This is a big task as there are more than 500 lodges in the state.

Mr. Harland accepted gracefully the greetings of the Mayor and congratulated the members of Grayling lodge upon their fine building, it containing one of the finest lodge rooms in the city and also a fully equipped theatre.

The speaker said that the 14 points offered by President Wilson embodied the principles of Odd Fellowship. The Order hopes to bring about universal peace by administering universal justice and thus obtain universal brotherhood. The speaker gave a review of some of the great work that has been done by the Independent Order of Odd Fellows which achievement has brought honor and credit to the order. He admonished his auditors to practice Odd Fellowship by living up to the principles of the order. He chattered the old idea of always talking of the "goat" and urged that more be said of the beautiful lessons of the order and principles upon which it was founded and that the goat be relegated to the background. His address was inspiring and masterful and carried strong conviction to those who heard him.

Secretary Rogers is no stranger in Odd Fellow meetings anywhere in Michigan. He has been secretary so long that every city, town and hamlet wherever the order is established he is known and his intimate acquaintance. Usually in the past whenever the Grand Master was out on a visiting tour the secretary had to deliver the main speech. This is not the case since Mr. Harland has been the Master. However Secretary Rogers gave a brief but very pleasing address. He sprang a number of things at the expense of Mayor Petersen and others that brought forth much applause. He said that he was not supposed to give an address and that he was only the "Cheer-up-idist." He was equal to the job and at times had his audience convulsed the laughter.

He spoke seriously at times. Speaking of Mr. Harland he said that he was the man of the hour in Odd Fellowship. He told of some of the fine achievements of the order since its organization, and acclaimed it as a character builder and a community builder.

The audience were treated again by a vocal solo, by Fred Alexander. He sang "Oh, Heart of Mine." Chaplain C. E. Doty was down for a few remarks. He sprang a few hot stories and allusions and closed with benediction.

In honor of the guests of the evening a very enjoyable banquet was spread in the lodge rooms after the program was finished. This was served by the ladies of the Rebekah lodge. Fully 150 persons sat down to the tables. This was a fitting closing of a most interesting Odd Fellow evening. After the banquet the members lingered long in interesting conversation, bumping elbows with their fellow members and thus adding strength and character in a real brotherhood.

## NORTHEASTERN MICHIGAN

THE LAND OF BIG CROPS AND FAT LIVESTOCK.

What a Packer Says on N. E. Michigan.

"I believe that Northeastern Michigan is destined to become a very productive section of this great state. Of course it has its limitations in the matter of climate, but for the sheep industry, the grazing of cattle and dairying we consider it most excellently adapted. The section has as pure water as is found anywhere in the world and during the summer months it has enormous crops of very fine grasses and clovers," said L. W. Talaferro, vice-president of Hammond, Standish & Co. of Detroit. "Young cattle shipped in and given the benefit of its grass and clover for a season take on weight rapidly and are in excellent condition for finishing with corn and concentrates in the fall."

"The great demand now is for what is known as 'baby beef', or in packer's parlance, 'long yearlings and short twos'."

"The Detroit market ought to be a big feeder market and probably will be as your part of the state develops. The great demand for beef in Detroit local markets and in the surrounding territory is for light, fat young stock. This is produced in Northeastern Michigan but not in the quantities that could be easily sold here. We would be glad to purchase a larger part of our supply of cattle from those produced in Michigan if they would come to this market."

Mr. Talaferro believes that the best results are obtained by grazing cattle during the season on Northeastern Michigan ranches and then shipping to the "corn belt" for the finishing off of the product, but many of the best ranch owners are raising their own feed and doing the finishing on their own ranches, getting big returns for the money and effort invested.

## THE WATER SUPPLY—LAKES, RIVERS AND FLOWING WELLS.

The two great requisites for successful grazing in any country are pasture and water. While the former may come first in the list it is of little value without the latter and the lack of water, even where the pasture was fair, has caused the death of thousands of cattle and sheep annually on the great grazing prairies of the west and southwest.

One western herder is quoted as saying: "As between long grass and short water and short grass and long water give me the long water every time." And northeastern Michigan is "long" on water. Throughout the territory there are a thousand lakes of varying size which never go dry and the most of which never change their level from one season to another. Feeding these lakes or running their courses into Lake Huron there are hundreds of creeks and streams which drain the territory and the most of which are "live" throughout even the driest season.

And as a further supplement to this natural water supply there is a ground water system which provides a never failing supply, both summer and winter, to the ranchman who is willing to spend a few dollars in boring an artesian well.

Throughout almost the entire district these ground waters are the source of flowing wells which, in some instances spout their supply 20 feet or more into the air and nearly all of which furnish a flow several feet above the surfaces of the ground.

The water from these wells is pure and sparkling and unusually soft for well water, furnishing a supply which is of the greatest excellence for household use as well as for watering stock.

This section of Michigan is surely "long" on water, without being troubled with vast swamps, and it is also "long" on grass, throughout eight or nine months of the year, for there is an average of about 32 inches of rainfall each year and even in the seasons of the greatest drought there has never been a failure of grass, for the rains of spring and fall and the snows of the winter months provide sufficient moisture to keep the grazing in good condition.

## Columbia Dry Batteries

For Bells, Buzzers, Signals, Auto Horns, Engines, Motorboats, Trucks, Trolleys, Toys, Telephones.

REMEMBER there are differences in dry cells, just as there are differences in the engines, bells and telephones. The dry cells run Play safe and buy standard Columbia Batteries. Buy them where you get them fresh, and full of pep and power.

## Ford THE UNIVERSAL CAR

Every farmer should have one or more Ford Trucks because of the profitable results that will follow their use. There is not any guess work about this statement. It has been proven on thousands of farms. If you farm, come in and let us tell you more about the Ford Truck's value to you in sure dollars and cents saving. It is a personal matter to every farmer. The Ford Truck is a business necessity. Orders should be left with us at once in order to get early delivery. Price \$550, without body, f. o. b. Detroit.

GEORGE BURKE, Grayling, Mich.

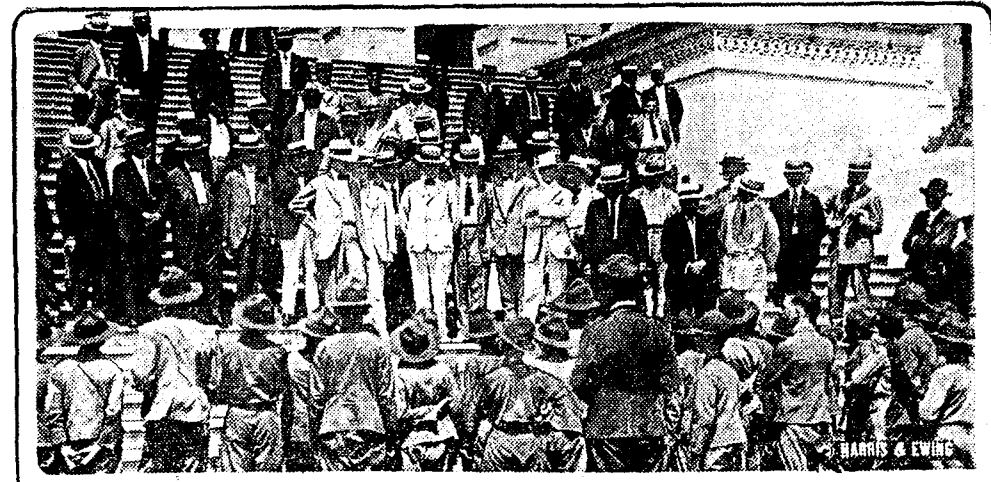

## FRENCH CLEAN UP STREETS OF RUINED REIMS

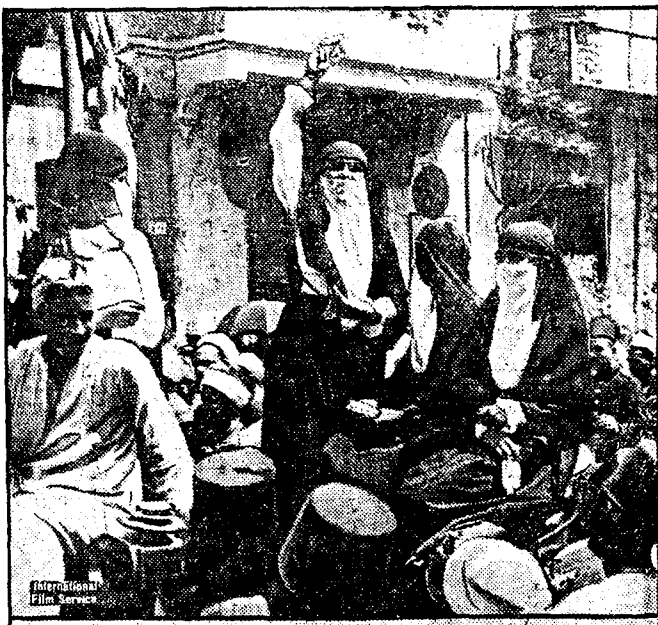

The view of the Rue Chanzy, Reims, shows how the French have made immaculate the streets of the city, though the place itself was made a mass of ruins by the German guns.

## VICE PRESIDENT ENCOURAGES THE BOY SCOUTS

Vice President Marshall, addressing the boy scout "flying circus" on the steps of the capitol, declared he hoped they will reach a membership of a million to aid in combating bolshevism. The vice president is at the left center of the picture with his hand on his hip. Several members of the senate and house helped him receive the boys.

## HAREM WOMEN MAKE PUBLIC SPEECHES

Exclusive photograph showing native Cairo women addressing a crowd in one of the principal streets of the Egyptian city. The speakers are urging greater patriotism and loyalty to their land. This is the first time that Egyptian women have been permitted freedom of speech in public.

## HEIRESS AND AVIATOR HUSBAND

Althea Gordon Drexel, one of America's greatest heiresses, only daughter of Mr. and Mrs. John R. Drexel of New York and granddaughter of the late Anthony Drexel of Philadelphia, and Capt. William Drexel, air force, U. S. A., with whom she eloped recently. Their marriage "shocked and surprised" the bride's parents.

## POSTSCRIPTS

Keeping dogs awake for several hours, the French scientists demonstrated that both nerve cells and muscles lack oxygen when they are tired and secrete a poisonous acid.

South Africa's flocks total more than 82,000,000 sheep, producing over 170,000,000 pounds of wool per annum. In some parts of Cape Province, South Africa, clover gives a yield of \$250 to \$300 an acre, Johannesburg being the chief market.

The revenue of the Spanish treasury in 1918 totaled \$331,203,307, and the disbursements \$334,181,503, resulting in a small deficit.

The Krupp works have begun to manufacture surveying measures, rulers, squares, sighting apparatus, hydraulic and electric armatures and ventilators.

It is understood that Lloyds' bank, the National Provincial and the Union of England bank are planning to establish branches at Antwerp and at Brussels.

## HELPS HUNT TERRORISTS

HARRIS & EWING

The work of Dr. Charles E. Munroe, explosives expert in the United States bureau of mines, is expected to be one of the most valuable aids in discovering the bomb terrorists. Once the authorities establish definitely the material used in the bombs they have a better chance of finding out where they were made.

## Why Short Hours Are Best.

That men accomplish more in short spells of severe labor broken by longer spells of rest is illustrated by the story of a war between two officers at the front as to the time necessary to dig two equal lengths of a trench, each with an equal number of men. Major A. C. Farquharson told it to the British house of commons in a debate on hours of labor.

One officer let his men work as they pleased, but as hard as possible. The other divided his men into three squads, to work in rotation, each squad digging its hardest for five minutes and then resting for ten. The second team won easily.

## Valuable Trainload.

One train left Monte Vista, Colo., recently loaded with hogs and potatoes with a market value of \$82,450. It consisted of 18 cars of fat hogs from the Monte Vista sections, 12 more cars of hogs brought in by the Santa Luis Central, and 10 cars of potatoes. The hogs were worth about \$3,000 a carload, and the potatoes \$550 a car.

## Up Against Something.

Percy—What has your father against me, dear?

Polly—I don't know exactly, but, judging by his talk, he's going to have one of his shoes against you at the first opportunity.—Buffalo Express.

## Prostitution of Talent.

"Who is the gentleman?"

"A landscape architect."

"He seems upset about something."

"Yes. He has been asked to provide a suitable setting for a portable garage."—Birmingham Age-Herald.

Tomatoes—Hothouse, 24@25c per lb; Florida, original \$3@5, packed \$7.50@8 per case.

## Higher Railroad Rates Forecast.

Old Point Comfort, Va.—Return of the railroads to private operation during the readjustment period would occasion a necessity for increased freight rates that would mean a rise in prices in this country, "the apex of which no man could predict," says M. Woolley, member of the interstate commerce commission, declared in an address here. Owing to the cut in railroad revenues caused by diminished traffic an increase in rates would be necessary.

## War Material Wantonly Destroyed.

Washington.—Congressional investigation of war time expenditures of the war department was opened with Sergeant Charles B. Malcom, who has just returned from France, testifying that he personally had seen large quantities of government property, both old and new, wantonly destroyed by fire. "The only apparent explanation for burning this property," declared Malcom, "was that the salvage officers did not care to sort the equipment salvaged."

## THE LAND OF HONEY

## Bee Keeping on the Mountains.

One of the most valuable assets to New South Wales is its Mountain country, which extends in a broad belt running North and South right through the State with an elevation varying from a few hundred feet on the foothills to several thousand feet on the higher ranges.

Included in this area is a considerable extent of tableland with an English climate, portions of which are already occupied by settlers engaged in farming and pastoral pursuits, but the immense extent of broken country embraced in the Mountain area is practically uncultivated.

The soil varies from rich volcanic, covered with dense, semi-tropical vegetation, to sandstone (overlying coal measures) that require a close industry to yield a subsistence by ordinary methods of cultivation, but even in the poorest forest tracts are innumerable sites where homes may be made within easy distance of the seaboard and most independent conditions to be found anywhere on earth. On such settlements honey, timber and dried fruits are the principal sources of income.

Those not familiar with this Mountain region can form no idea of the enormous quantities of honey produced by the native trees and flowering shrubs every year. Occasionally the yield takes the form of "manna" or sweet sap exuding from small punctures made in the bark of the trees by the sap-producing cicada. This form of honey production, however, is the exception and not the rule. The usual thing is for the honey to be secreted in the form of nectar in the flowers—the members of the Eucalyptus family have a little cup in the center of the flower in which the honey is formed. When the Mountain forests are white with bloom, the English bees that have gone within the bush and are now plentiful, make their nests in the hollow trees, and the settler can obtain from them sufficient stock to start an apiary.

Among the honey-producing trees of New South Wales the Eucalyptus family easily take first place, both in respect to the number of species and to the quantity of honey produced, and it is an absolute fallacy that the flavor of the honey has a eucalyptus flavor. The flavor resides in the leaves and bark, but never in the honey secreted in the flowers, nor in the manna secretions.

From the numerous members of the Eucalyptus family the flavors and types of honey are almost as numerous as the trees that produce them, and they are all palatable and good. The various trees have their set times for coming into bloom, different varieties blooming at intervals right throughout the year. The honey from those that bloom in the winter and spring is mainly consumed by the bees themselves in the rearing of the spring broods before swarming time. The great bulk of the surplus honey obtained comes from a comparatively small number of varieties.

Where the sources of honey supply are so numerous it would be difficult to describe every honey-producing tree in the Mountain area, but it may be said that the most important are the box family found chiefly on the Western slopes and plains. Of these the white and yellow box are the most important. The honey from the white box is water white in color, clear and limpid, with the fine flavor characteristic of the box family in its most delicate form. The honey from this tree is always sure of a market in Australia. Unlike nearly all pure honeys it does not granulate, and this peculiarity makes it popular with the bottling firms, as it seldom requires to be melted before being bottled.

The honey from the yellow box has the characteristic flavor common to the box family, but in color it is a rich golden tint, and like the white box honey, it retains its liquid form for a considerable time.

The red bloodwood tree is one of the most widely distributed and valuable of the mountain honey-producing trees. It blooms in Autumn, in February and in March. In a year of general bloom the trees are a beautiful sight, the mountains for miles appearing one mass of white-topped trees, while the air is laden with the rich honey perfume and full of the din of sarrots and the steady roar of ex-

cited bees tumbling over each other in their eagerness to gather the rich stores. The honey from the bloodwood is of clear, rich golden color, and of excellent flavor. Unlike the "box" it granulates almost at once after extraction into a creamy white crystal, very delicious to the palate. The wax produced by the bees from bloodwood honey is also characteristic, being bright yellow in color and unusually pliable, tough and tenacious. As a wax for the fine grades of foundation comb it is without rival and very much in demand commercially.

The gray gum is another splendid honey yielding. It blooms in January, and the golden honey it produces is about equal to the bloodwood honey. It crystallizes speedily and is considered very suitable for export, and is a favorite with the apiculturist.

The Sydney peppermint, the gray ironbark, the white stringybark, the white bloodwood, the red apple and the white apple are all good honey-producing mountain trees with different characteristics and of different commercial values, and some of the honey that is not suitable for table use owing to its coarseness of its flavor has been found invaluable in the manufacture of vinegar.

The possibilities of honey production are too great to be overlooked, for a man with a small capital will find this industry something that brings in immediate returns, and many a settler in the Mountain district has made a good living on a poor patch of land by the aid of his bees, while preparing the way for fruit growing on a large scale.—Adv.

## NEW SOUTH WALES INFORMATION BUREAU

Singer Building, 149 Broadway, New York City

Will be pleased to send Government Bulletin or answer any inquiries regarding opportunities for work in New South Wales, mining and investment in New South Wales.

## AUSTRALIA

## Peace Epigrams.

At a dinner the other night to Edward Price Bell, the well-known American journalist, several epigrams were related about the peace terms. The Americans described it as "a peace with a punch." An English speaker said he had heard it described as "a peace with a vengeance."

I may add as the expression of the feelings of the ordinary man who has had to work through the 10,000 words, that it is a peace that passeth understanding.—Manchester Guardian.

## Which Had Which?

Mother had taken Joe and John to the doctor's for an examination as the teacher had suggested. At the supper table that night she reported the verdict to father. "The doctor says they have adenoids and bad tonsils," she told him.

Father looked surprised but before he could speak, up piped six-year-old John: "Which one of 'em is mine, mom, and which one is Joe's?"

## Economics.

"If women gain political control—"

"Yes, go on."

"Do you think they would allow the government to persist in collecting taxes on ice cream soda?"

## KIDNEYS WEAKENING? BETTER LOOK OUT!

Kidney and bladder troubles don't disappear of themselves. They grow upon you, slowly but steadily, undermining your health with deadly certainty, until you fall a victim to incurable disease.

Stop your troubles while there is time. Don't wait until little pains become big aches. Don't trifle with disease. To avoid future suffering begin treatment with GOLD MEDAL HAZELTON OIL Capsules now. Take three or four every day until you feel that you are entirely free from pain.

This well-known preparation has been one of the national remedies of Holland for centuries. In 1693 the govern-

ment of the Netherlands granted a special charter authorizing its sale.

The good housewife of Holland would almost as soon be without food as without her "Real Dutch Drops," as she quaintly calls GOLD MEDAL Hazelton Oil Capsules. Their use restores strength and is responsible in a great measure for the sturdy, robust health of the Hollanders.

Do not delay. Go to your druggist and insist on his supplying you with a box of GOLD MEDAL Hazelton Oil Capsules. Take them as directed, and if you are not satisfied with results your druggist will gladly refund your money. Look for the name GOLD MEDAL on the box and accept no other. In sealed boxes, three sizes.

## Dr. Kellogg's Asthma Remedy

for the prompt relief of Asthma and Hay Fever. Ask your druggist for it. 25 cents per bottle. Write for FREE SAMPLE.

Northrop & Lyman Co., Inc., Buffalo, N.Y.

## WHY SO MOODY?

To feel "blue," cross and nervous all the time is not natural for anyone. Often it is due merely to faulty kidney action. Housework and the many family cares wear the nerves and so weaken the kidneys. Then come that tired, fretful, bad-tempered state. If you have backache, headache, dizziness and kidney irregularities, and sharp, shooting pains, try Doan's Kidney Pills. They have brought health and happiness to thousands of women.

## A Michigan Case

Mrs. Caroline Keeler, W. Main St., Paw Paw, Mich., says: "The first symptoms of kidney trouble in my case were headaches and dizzy spells. I had chills and twinges in my back, shoulders, arms, neck and limbs. My eyes and arms were swollen and sore. Two boxes of Doan's Kidney Pills put me on the road to recovery and in six weeks I was up and around, able to do my housework and take care of my children."

Get Doan's at Any Store, 50c a Box. **DOAN'S KIDNEY PILLS** FOSTER-MILBURN CO., BUFFALO, N. Y.

W. N. U., DETROIT, NO. 26-1919.

## Pardonable Curiosity.

"Gabe Sogback got hold of a drink or two of bone-dry liquor tatter evening and went home and threw himself on the bed, face down," related a citizen of Sandy Mush, Ark. "As soon as he was asleep his wife took and tied him fast by the four corners, spread out like a capital letter 'X,' and beat and mauled him with a wagon spoke till she mightily nigh smashed him flat. A passel of us fellows going by heard the howl, and, 'loving a varmint was killing somebody, went in, and sorter persuaded Mizsuz Sogback to turn Gabe loose. She said she had whipped him 'tuz she loved him. I reckon that was all right, but I'm sorter curious to know what she'd add to him if she—'ntuz—'shed him."—Kansas City Star.

## Matter of Jurisdiction.

At the master painters and decorators' banquet the other evening one of the guests said to a companion:

"I notice a couple of doctors in the gathering."

"Yes, I saw them, too," the other replied.

"How do you account for their presence here?"

"Oh, we are obliged to be very strict on account of the union."

"How does that affect the doctors?"

"Every doctor must have a working card, you know, so he will be able to paint with iodine."—Youngstown Telegram.

## The Test.

"So you bought a parrot yesterday?"

"Yes; I want to see if they live a hundred years, as people say."

## Sometimes It Would Seem So.

Under Timothy used to say:

"Lots of people gets divorced so's they kin git married."

It is never safe to judge a woman's courage by the way she manages to avoid an interview with a mouse.

## WANTED

Reliable man to act as our local purchasing agent. This proposition can be filled without interference with present occupation. General Store owner or energetic farmer preferred. Full particulars by addressing

BUFFALO BURLAP CO.

57 Adams Street Buffalo, N. Y.

## Middle Aged Women

Are Here Told the Best Remedy for Their Troubles.

Freemont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. GODDARD, 925 Napoleon St., Freemont, Ohio.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms."—Mrs. FLORENCE ISLELL, Box 197, North Haven, Conn.

## In Such Cases

## LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Entered as second class matter at the Postoffice, Grayling, Mich., under the act of Congress of March 3, 1879.

GRAYLING, THURSDAY, JUNE 26

### MOTION PICTURE EXPERT WILL FILM CHIEF FEATURES AT METHODIST CENTENARY.

Carrying out the promises in regard to filming many of the chief features of the Methodist Centenary celebration which opened at the Ohio Exposition grounds, Columbus, Ohio, June 20 and continues until July 13, D. W. Griffith, motion picture leader of Los Angeles, has sent two of his out-door experts, A. P. Hanburg and J. C. Bitzer, from his studios at Los Angeles.

They arrived at the grounds with orders from Mr. Griffith to carry out all the promises and arrangements Mr. Griffith made when he was in Columbus several weeks ago, conferring with Dr. J. E. Crowther, associate director general and other heads of the Celebration.

Hanburg and Bitzer, after conferring with Dr. Crowther, who is author of the program, and Lawrence H. Rich, expert technician and stage director of the coliseum, made plans for starting the work of filming the Centenary. Mr. Griffith has estimated the cost of producing the films in connection with this great missionary celebration at \$30,000, but the cost was considered worth while in view of the fact that this was the best way to take the celebration to those shut-ins all over the country, and in fact all over the world, who will not be permitted for one reason or other to attend the Centenary in person.

### BIG RESPONSE TO GOODRICH "MORE MILEAGE" MESSAGE.

The response to the Goodrich "more-mileage" message has been unusual and far-reaching according to W. O. Rutherford, Second Vice President of The B. F. Goodrich Rubber Company, in charge of sales.

Commenting on reasons why the adjustment on Safety Treads was placed at 6,000 and Silvertowns at 6,000, Mr. Rutherford stated:

"Goodrich is making the burliest, sturdiest, most lasting tires the rubber industry has ever seen, and Goodrich knows it.

"In every test of road roughing to which tires can be put, Goodrich tires have unfolded an endurance and ability to take punishment which is run into phenomenal mileage.

"Confident in this knowledge and belief, Goodrich desires that all tire users share in the confidence of Goodrich, and the big mileage Goodrich tires assure.

"Therefore, Goodrich announced to dealers and users—because of the future owners of its Pneumatic Tires—an adjustment basis of 6,000 miles on Safety Treads, 8,000 miles on Silvertown Cordas, instead of 3,500 and 5,000 respectively, heretofore in force.

"In every case the Goodrich adjustment is a fair one and Goodrich knows the mileage is in its tires and more, and to make you realize you lose money in being without Goodrich tires, the new Goodrich announcement is proclaimed far and wide through newspapers.

"In all the history of the Goodrich Company and all the history of our newspaper advertising we have never had such a spontaneous response showing the confidence that both Goodrich dealers and car owners have in the Goodrich Rubber Co. and the way in which our company has always looked after their interests, first, last and all the time.

"The newspapers are the 'Foch' method of advertising and in this case they have proven a mighty effective instrument of advancement of Goodrich interests among dealers and car owners."

### RIVERVIEW ITEMS.

A. Gibson and Chas. Stephens went to Grayling Saturday.

Bernard Bromwell has gone to Grayling to work at the DuPont plant.

Wm. Bromwell and wife and F. Atwell and wife took in the show at Grayling Saturday evening.

P. Robertson and E. Amaberry are again at the Alma cottage.

J. H. Grover and wife and Mrs. W. Weiss were in Grayling on business Saturday evening.

Wm. Weiss took his tractor to Matt's new mill.

Will Fischer and wife left Thursday for Madison, Wis.

Ben Six and wife came Monday night to remove their household goods to South Boardman.

Mrs. Tom Ingersoll has gone to the Watershed Ranch where she is employed as cook.

Milo Whitaker of Antrim stopped over night at the hotel Riverview.

Some one might of gotten hurt Saturday night in what occurred by the wagon bridge. One horse of a team became unmanageable and kicked over the traces and the other horse went rolling over a log. Then, all was alright again. But, "There's always something going down in Dixie."

Mr. and Mrs. North spent Friday with Mr. and Mrs. Billings near Birchwood lodge.

Mrs. Eastman and two daughters of Detroit spent Monday and Tuesday at Birchwood lodge.

Mr. and Mrs. Briggs, Mrs. E. Briggs and Mr. and Mrs. J. Rader of Pile Lake spent Sunday with Mr. and Mrs. Atwell.

Joe McCarty passed through here on his motor Sunday.

### MAPLE FOREST NEWS.

Mrs. Wm. Johnson has rented the house located on the old Buck place. She expects to occupy same soon.

It is being generally understood that Gerlie and Archie are still inclined along the matrimonial path.

Miss Lela Murphy has returned home after spending last fall and this spring in Grayling attending the High School located there.

The young folks of Maple Forest Township are planning on going to their annual camping party on Lake Guthery the first of next week. There will be a competent chaperon for them, and all young folks are cordially invited to attend.

### BEAVER CREEK BREEZES.

The crops are fine here altho a rain would be of great benefit.

Perry Friend is again seen in our vicinity, after spending the winter in Decatur, Ill.

Mrs. Lloyd Visnaw and little daughter from Detroit are visiting at the home of her parents, Mr. and Mrs. John Love, while Mrs. David Visnaw and children of Bay City, have also been visiting the home folks.

Mr. and Mrs. Wm. Adamson and Mr. and Mrs. Walter Smith, and the latter's sister spent the day at Lloyd Marlow's Sunday.

Harold Skingley and family of Grayling visited at the home place Sunday.

Some of the boys of our neighborhood enjoyed the lake very much Sunday. The water's fine.

We learn that Cecil Sims has returned from over the waters, and will soon resume his former occupation of carrying the mail for Uncle Sam.

Asleep? Oh! No, we are wide awake even trying to control the grasshoppers. They are on the go now. Have been doing some chasing. The chicken hawks are also very plentiful and are visiting the farm yards quite often here of late.

### UNUSUAL HAPPENINGS AND OTHER BRIEF NEWS

**Fire Destroys 102 Airplanes.**  
Paris.—Fire broke out in the air-drome at St. Cyr, destroying 102 hangars and 102 airplanes. An enormous amount of other damage resulted. The loss is estimated at \$800,000.

**Recover Bodies Lost Last Fall.**  
Juneau, Alaska.—Bodies of 15 of the 342 persons lost last fall when the steamer Princess Sophie sank in Lynn canal, have been brought here by divers who have been working on the sunken vessel.

**Three Sets Of Twins In Three Years.**  
Shamokin, Pa.—Mrs. Anna Cholek, twenty-four year old, has just given birth to a third set of twins in three years. The first set born in 1916, were boys; in 1917 a boy and a girl arrived, and the last two are also future presidents.

**Climbs to Height of Over 6 Miles.**  
Issy-Molyneux, France.—Lieut. Cazale, French aviator, established a new altitude record, driving his airplane to a height of 10,000 meters (33,136 feet, five inches) in 55 minutes. This was the fifth time within a month that Cazale exceeded 9,000 meters (27,861 feet).

**80,000 Soldiers Ask For Farms.**  
Washington.—More than 80,000 soldiers, many of them still overseas, have notified Secretary Lane of their desire to obtain farms under the plan endorsed by him and now being considered by the house public lands committee.

**Aliens Plan to Leave America.**  
Washington.—That 1,300,000 aliens are planning to return to their native countries as soon as they can get passage following the signing of peace, is shown by an investigation conducted by the department of labor. They will take with them an average of \$3,000 each, the statement added.

**Speculators Control Lumber Price.**  
Chicago.—Louis Walsh of the United States department of labor, declared before the National Association of Veneer and Panel Manufacturers' convention that 1,200,000,000 board feet of timber and other building material was in the hands of lumber speculators. He said a similar condition prevailed as to minerals.

**Partial Cable Service to Germany.**  
Washington.—Cable communication with Germany has been partially resumed. The War Trade Board announced that all cable companies and censors had received instructions to accept and transmit cablegrams relating to the supply of foodstuffs to Germany under the Brussels agreement when the messages were other wise unobjectionable.

**Interned Aliens Glad to Go Home.**  
Salt Lake City.—Instructions from Washington to prepare to accompany 260 aliens from the war prison barracks at Fort Douglas to an Atlantic seaport, from which place they will be deported have been received by agents of the department of justice. Virtually all of the men asked to be returned to their native land.

**House Votes to Return Wires.**  
Washington.—Without a roll call the house passed the senate wire control bill, repealing the law under which the government assumed control of the telegraph and telephone lines and returning the wires to owners. The telegraph lines are to be returned at the end of the calendar month in which the bill becomes a law and the telephone lines six months after passage.

**Ordered to France, Tommies Mutiny.**  
London.—The mutinous conduct of troops at Sutton Camp, Surrey, culminated in the formation of a committee by the men and their refusal to salute or to obey orders. Two battalions of troops were sent to the camp to restore order. They arrested 400 men, among them the ringleaders, and dispatched 1,800 other men to camps at Dover and Canterbury. The main grievance of the men was that they were being ordered to France.

**Notorious Burglar is Captured.**  
Ossining, N. Y.—Chester Yates, bank robber and holdup man, who escaped from Sing Sing prison more than six years ago, has been arrested in Kansas City. Yates escaped from Sing Sing during a heavy fog Dec. 18, 1912, after he had served only four months of a 21-year sentence for the theft of \$87,000 in securities from a New York broker. He was captured three years later in New Orleans, but saved his way out before Sing Sing attendants arrived.

**War Takes 16 in One Family.**  
Paris.—Thirteen sons killed, three discharged, one wounded four times, father and a daughter shot by the Germans for going to Lille to the birthday party of a relative, and another daughter killed by a German shell at Dunkirk, is the record of the family of M. Vanhee, French farmer, near Trepas. M. Vanhee had 35 children—22 sons. One, the eldest of Pope Plus X, returned to France to fight and was wounded in four battles. He has recovered.

Have you ordered your fuel for next winter? We are ready to take your order. City Coal Yard, Phone 718.

**A Hot-Headed Youth.**  
You see, he had a lantern jaw to begin with, and so his whole face lit up. His cheeks flamed, he gave a burning glance, and then, blushing with anger, he administered a scorching rebuke.

## WANTS

Advertisements will be accepted under this heading at the rate of 5 cents per line, Monday through Friday, for less than 15 cents. There are about six words to the line. SEND MONEY WITH THE ORDER.

**LOST**—A light weight orange color raincoat about 6 miles south east of Grayling on road to South Branch, about a month ago. Reward offered by H. A. Bauman. 6-26-3.

**A NEW HOME** sewing machine for sale, in good condition. Inquire of Mrs. LeRoy Froesch.

**HOUSE TO RENT**—Inquire of Celia Granger, Phone 1022.

**ANY information** concerning the tin box, containing deeds, abstracts and other valuable papers of P. O. Purcell, also an 8 inch blade hunting knife, a new 8 foot rule, all stolen from the Potter place, Wednesday June 18, by two boys from Grayling. Reward for return of same to Avalanche office or P. O. Purcell, lock box 208, Grayling.

**FOR SALE**—Seven room house on Maple street. Terms made known on application. Phone 264. Mrs. J. S. Harrington. 6-26-3.

**WANTED**—A man and his wife without children to work on my farm at Bay City the year around. During the summertime, haying and planting of corn will be the principal work, and in the winter time it will be pressing hay and handling it and getting it ready for market. There is a nice cottage to live in on the premises. R. Hanson.

### PROBATE NOTICE.

State of Michigan  
The Probate Court for the County of Crawford.  
At a session of said Court, held at the Probate Office in the Village of Grayling, in said county, on the 21st day of June A. D. 1919.  
Present: Hon. Oscar Palmer, Judge of Probate.  
In the Matter of the Estate of Hyman Joseph, Deceased.  
Abraham J. Joseph having filed in said court his petition praying that the time for the presentation of claims against said Estate be limited and that a time and place be appointed to receive, examine and adjust all claims and demands against said deceased by and before said court.  
It is Ordered, That the twenty-first day of October A. D. 1919, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.  
It is further Ordered, That public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford Avalanche, a newspaper printed and circulated in said county.

Oscar Palmer,  
Judge of Probate. 6-26-3.
